

Name: _____

Problem Solving: Something Fishy!

Strategy: Draw a Picture

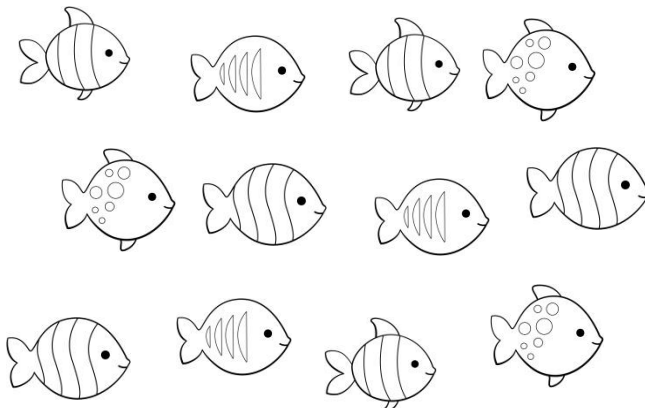

Problem: Mrs. Rivera's second grade classroom has an aquarium. Each year she buys a dozen fish to put in the aquarium. At the end of the year Mrs. Rivera gives $\frac{1}{3}$ of the fish to students in her classroom and takes the rest home for her family to enjoy. How many fish does Mrs. Rivera give away each year?

Step 1: Circle the math words.

Step 2: Ask yourself: Do I understand the problem?

Step 3: Solve the problem. Use the picture to help.

Hint: How can you make 3 groups from these 12 fish?

Step 4: My answer is _____
