

Husband Tips for the Kitchen

For when your husband claims...

You have too many rules! How can I ever remember them!?!

Rinsing is **NOT** the same as washing!

Cups and bowls should go into the dishwasher upside down. If you put them right side up, they will collect the dirty water.

When you leave the freezer door open **FOREVER** you will make the frozen foods frosty. (This is a fact, not something I made up!)

Put the peanut butter on the bread first, and then the jelly. (Do not lick the knife in between using the peanut butter and jelly!)

ALWAYS rinse the dishes before you put them in the dishwasher. (This will prevent me from having to scrub them after they come out of the dishwasher.)
