Problem Solving: Hiking
Let’s Go Camping! (adding minutes)

Problem: Jacob and Mackenzie were keeping track of how many minutes they walked on their camping trip. They walked for 20 minutes to get to their campsite. They walked 15 minutes to get to the lake for fishing and 15 minutes to get back to their campsite. The next day they took a 35 minute hike. At the end of the day, they walked 20 minutes back to their car. How long did they hike? (Remember to tell how many hours and how many minutes.

Step 1: Circle the math words.
Step 2: Ask yourself: Do I understand the problem?
Step 3: Solve the problem using numbers, words and pictures below.

Step 4: My answer is ______________________
______________________________________________
______________________________________________
______________________________________________
______________________________________________
______________________________________________
______________________________________________
______________________________________________

(Make sure you include why your answer makes sense on step 4!)
