"I Can" Read (Reading - Foundational Skills) I can read words by using what I know about letters and sounds. □ RF.3.3 I can show what I have learned about letters and sounds by figuring out words. □ RF.3.3.A I can find and tell the meanings of most common prefixes and suffixes. □ RF.3.3.B I can read words with common Latin suffixes. \square RF.3.3.C I can read words with more than one syllable. □ RF.3.3.D I can read third grade words that aren't spelled the way they sound. I can read and understand books at my level well. ☐ RF.3.4 I can fluently read and understand books at my level well. □ RF.3.4.A I can read and understand third grade books. ☐ RF.3.4.B I can read third grade books and poems aloud like a teacher would read them. ☐ RF.3.4.C I can use what I understand from my reading to help me figure out or correct words I am having trouble with.

"I Can" Read Fiction (Reading - Literature) I can read, understand and talk about the fiction stories I read. $\hfill\square$ RL.3.1 I can ask and answer questions to show that I understand the stories that I am reading. □ RL.3.1 I can find the answers to specific questions within the stories that I read. □ RL.3.2 I can remember and retell different kinds of stories from many cultures. \square RL.3.2 I can figure out the lessons or morals of the stories that I read and explain that message using details from the story. \square RL.3.3 I can describe characters in stories and explain how their actions affect the story. □ RL.3.4 I can figure out the meanings of words or groups of words in stories by thinking about how they are used. □ RL.3.4 I can tell the difference between literal and nonliteral language when I read.

"I Can" Read Nonfiction (Reading - Informational Text) I can read, understand and tell about nonfiction. \square RI.3.1 I can ask and answer questions to show that I understand the information that I am reading. □ RI.3.1 I can find the answers to specific questions within informational text that I read. □ RI.3.2 I can talk about the most important details in the information I read and how they support the main idea. □ RI.3.3 I can describe how some historical events are related. □ RI.3.3 I can describe how some scientific ideas are related. \square RI.3.3 I can describe how the steps in a set of directions is related. □ RI.3.4 I can figure out the meanings of words and phrases in science and social studies texts.

9	7
	"I Can" Write
	(Writing)
l	I can write different types of writing for different reasons.
	□ W.3.1 I can write to share my opinion and give reasons to support that opinion.
\sim	□ W.3.1.A I can write my opinion piece in an organized way that introduces my opinion and lists my reasons.
	 □ W.3.1.B I can give reasons to support my opinion in my writing. □ W.3.1.C I can use linking words (because, therefore, since, for example, etc.) to connect my opinion with my reasons. □ W.3.1.D I can write a conclusion (ending) to my opinion piece.
/	I can write different types of writing for different reasons.
	 W.3.2 I can write to inform and explain ideas to others clearly. W.3.2.A I can write an informative text that introduces my topic and then groups related information together. W.3.2.A I can include illustrations in my writing to help others understand my topic better.
(□ W.3.2.B I can write about a topic using facts, definitions and details.
\bigcap	 W.3.2.C I can use linking words (also, another, and, more, but, etc.) to connect the ideas in my writing. W.3.2.D I can write conclusions (endings) to my informative pieces of writing.

"I Can" Share & Listen (Speaking and Listening) I can have and understand conversations with all kinds of people. ☐ SL.3.1 I can successfully participate in discussions. □ SL.3.1.A I can come to discussions prepared to share my ideas because I have read or studied what I needed to. □ SL.3.1.B I can listen, wait to speak until it's my turn and be respectful of others when I am having discussions. □ SL.3.1.C I can ask questions to help me understand discussions, stay on topic and to help me to connect my ideas with other people's ideas. \square SL.3.1.D I can explain my own thinking and ideas after a discussion. \square SL.3.2 I can figure out the main ideas and details of what I see and hear. \square SL.3.3 I can ask and answer questions about what a speaker says so that I can talk more about the topic.

"I Can" Share & Listen (Speaking and Listening) I can share my ideas and what I have learned. □ SL.3.4 I can give a report or share a story or experience with important details to help others understand. \square SL.3.4 I can speak clearly and at an appropriate speed when I give a report or share a story or experience. \square SL.3.5 I can create engaging recordings of stories or poems to show my fluency in reading. \square SL.3.5 I can create visual presentations to help me share facts and details better. \square SL.3.6 I can speak in complete sentences to make what I am sharing more clear to others.

"I Can" Use Proper English (Language) I can use proper English when I write and speak. \square L.3.1 I can show that I know how to use words correctly when I write and speak. □ L.3.1.A I can explain how nouns, pronouns, verbs, adjectives and adverbs work in different sentences. \square L.3.1.B I can correctly say, write and use all kinds of plural nouns. □ L.3.1.C I can use abstract nouns (e.g., childhood, honesty, courage, faith). \square L.3.1.D I can correctly say, write and use regular and irregular verbs (action words). \square L.3.1.E I can correctly say, write and use different verb tenses (e.g. I walked; I walk; I will walk). \square L.3.1.F I can make sure that all of my subjects and verbs go together correctly in the sentences I say and write. \square L.3.1.F I can make sure that all of my pronouns and the nouns they refer to go together correctly in the sentences I say and write. \square L.3.1.G I can correctly use comparative and superlative adjectives and adverbs correctly in my speech and writing. \square L.3.1.H I can use conjunctions in the correct way in my speech and writing. □ L.3.1.I I can say and write simple, compound and complex sentences.

9	7	>
/	"I Can" Use Proper English	(
1	(Language)	١
6	 □ L.3.2 I can show that I know how to write sentences correctly. □ L.3.2.A I can use capital letters correctly when I write titles. □ L.3.2.B I can use commas correctly in addresses. □ L.3.2.C I can use commas and quotation marks correctly when I write dialogue between two people or characters. □ L.3.2.D I can use apostrophes appropriately to show possession. □ L.3.2.E I can spell commonly used words correctly and add suffixes to them. 	$\bigg)$
	 L.3.2.F I can use spelling patterns and rules to help me spell new words. L.3.2.G I can use a dictionary or other resources to check and correct my spelling. 	>
\ 1	can use what I know about language in different situations.	
□ L.3.3 I can write, speak, read and listen by using what I know about the English language. □ L.3.3.A I can choose interesting words and phrases to help others understand my meaning better. □ L.3.3.B I can recognize differences between my speaking language and my written language.		
1	2 - 2	

"I Can" Use Proper English (Language) I can figure out what words mean and use them in different situations \square L.3.4 I can figure out what words mean by using the strategies I know and by thinking about what I have read. \square L.3.4.A I can use context clues to help me understand new words. □ L.3.4.B I can use prefixes and suffixes that I know to help me understand new words. □ L.3.4.C I can use root words I know to help me understand the meanings of new words. □ L.3.4.D I can use print and computer dictionaries to help me find the meanings of new words. \square L.3.5 I can show that I understand figurative language (e.g. busy as a bee; slow as a snail; you are what you eat). □ L.3.5 I can figure out how words are related and how their meanings might be similar. □ L.3.5.A I can tell the difference between literal and nonliteral language when I read. □ L.3.5.B I can find real-life connections between words and the way they are used (e.g. people who are friendly or helpful). □ L.3.5.C I can figure out the small differences in meaning with related words that tell about how people feel or how they are acting (e.g., knew, believed, suspected, heard, wondered). \square L.3.6 I can use the new words and phrases I have learned in different ways to show that I know what they mean.

"I Can" Do Math (Operations & Algebraic Thinking) I can write and solve problems using multiplication and division. □ 3.0A.A.1 I can understand multiplication by thinking about groups of objects. □ 3.0A.A.2 I can understand division by thinking about how one group can be divided into smaller groups. □ 3.0A.A.3 I can use what I know about multiplication and division to solve word problems. □ 3.0A.A.4 I can find the missing number in a multiplication or division equation. □ 3.0A.B.5 I can use the Commutative property of multiplication. (I know that if $6 \times 4 = 24$, then $4 \times 6 = 24$.) □ 3.0A.B.5 I can use the Associative property of multiplication. (To figure out $3 \times 5 \times 2$, I can multiply $3 \times 5 = 15$, then $15 \times 2 = 30$ OR multiply $5 \times 2 = 10$, then $3 \times 10 = 30$.) □ 3.0A.B.5 I can use the Distributive property of multiplication. (To figure out 8×7 , I can think of $8 \times (5 + 2)$ which means (8×1) $5) + (8 \times 2) = 40 + 16 = 56.)$

"I Can" Do Math (Operations & Algebraic Thinking) □ 3.0A.B.6 I can find the answer to a division problem by thinking of the missing factor in a multiplication problem. (I can figure out $32 \div 8$ because I know that $8 \times 4 = 32$.) □ 3.0A.C.7 I can multiply and divide within 100 easily and quickly (because I know how multiplication and division are related. □ 3.0A.D.8 I can solve two-step word problems that involve addition, subtraction, multiplication and division. □ 3.0A.D.8 I can solve two-step word problems by writing an equation with a letter in place of the number I don't know. □ 3.0A.D.8 I can use mental math to figure out if the answers to two-step word problems are reasonable. □ 3.0A.D.9 I can find patterns in addition and multiplication tables and explain them using what I know about how numbers work.

"I Can" Do Math (Numbers & Operations in Base Ten) I can use what I know about place value and operations $(+,-,x,\div)$ to solve problems with larger numbers. \square 3.NBT.A.1 I can use place value to help me round numbers to the nearest 10 or 100. □ 3.NBT.A.2 I can quickly and easily add and subtract numbers within 1000. □ 3.NBT.A.3 I can multiply any one digit whole number by a multiple of 10 (6 \times 90, 4 \times 30).

"I Can" Do Math (Numbers & Operations - Fractions) I can understand fractions. □ 3.NF.A.1 I can show and understand that fractions represent equal parts of a whole, where the top number is the part and the bottom number is the total number of parts in the whole. □ 3.NF.A.2 I can understand a fraction as a number on the number line by showing fractions on a number line diagram. □ 3.NF.A.2.A I can label fractions on a number line because I know the space between any two numbers on the number line can be thought of as a whole. □ 3.NF.A.2.B I can show a fraction on a number line by marking off equal parts between two whole numbers. □ 3.NF.A.3 I can understand how some different fractions can actually be equal. \square 3.NF.A.3 I can compare fractions by reasoning about their size. \square 3.NF.A.3.A I can understand two fractions as equivalent (equal) if they are the same size or at the same point on a number line. ☐ 3.NF.A.3.B I can recognize and write simple equivalent (equal) fractions and explain why they are equal using words or models.

"I Can" Do Math (Numbers & Operations - Fractions) \square 3.NF.A.3.C I can show whole numbers as fractions. (3 = 3/1) \square 3.NF.A.3.C I can recognize fractions that are equal to one whole. (1 = 4/4)□ 3.NF.A.3.D I can compare two fractions with the same numerator (top number) or the same denominator (bottom number) by reasoning about their size. \square 3.NF.A.3.D I can understand that comparing two fractions is only reasonable if they refer to the same whole. \square 3.NF.A.3.D I can compare fractions with the symbols \rightarrow , =, < and prove my comparison by using models.

"I Can" Do Math (Measurement & Data) I can solve problems that involve measurement and estimation. □ 3.MD.A.1 I can tell and write time to the nearest minute. □ 3.MD.A.1 I can measure time in minutes. □ 3.MD.A.1 I can solve telling time word problems by adding and subtracting minutes. \square 3.MD.A.2 I can measure liquids and solids with grams (q), kilograms (kg) and liters (l). □ 3.MD.A.2 I can use addition, subtraction, multiplication and division to solve word problems about mass or volume. I can understand how information is shared using numbers. □ 3.MD.B.3 I can make a picture or bar graph to show data and solve problems using the information from the graphs. □ 3.MD.B.4 I can create a line plot from measurement data, where the measured objects have been measured to the nearest whole number, half or quarter.

7	- 0 0
/1	can understand area.
	 3.MD.C.5 I can understand that one way to measure plane shapes is by the area they have. 3.MD.C.5.A I can understand that a "unit square" is a square with side lengths of 1 unit and it is used to measure the area of plane
\triangleright	shapes. □ 3.MD.C.5.B I can cover a plane shape with square units to measure
	its area. □ 3.MD.C.6 I can measure areas by counting unit squares (square cm, square m, square in, square ft.).
	□ 3.MD.C.7 I can understand area by thinking about multiplication and addition.
\langle	 3.MD.C.7.A I can find the area of a rectangle using square tiles and also by multiplying the two side lengths. 3.MD.C.7.B I can solve real world problems about area using
)	multiplication. \Box 3.MD.C.7.C I can use models to show that the area of a rectangle
	can be found by using the distributive property (side lengths and b+c is the sum of a × b and a × c). 3.MD.C.7.D I can find the area of a shape by breaking it down
\sim	into smaller shapes and then adding those areas to find the total area.
1	can understand perimeter.
	$\hfill\square$ 3.MD.D.8 I can solve real world math problems using what I know about how to find the perimeter of shapes.
7	- l l 6

"I Can" Do Math (Geometry) I can understand shapes better by using what I notice about them. □ 3.G.A.1 I can place shapes into categories depending upon their attributes (parts). \square 3.G.A.1 I can name a category of many shapes by looking at their attributes (parts). □ 3.G.A.1 I can recognize and draw quadrilaterals (shapes with four sides) including rhombuses, rectangles and squares. \square 3.G.A.2 I can divide shapes into parts with equal areas and show those areas as fractions.
