

# GOING FISHING!

**Directions:** Use the clues given and mark in the boxes below to help determine who caught what fish and how much it weighed.

Maya, Peyton and Julia decided to go fishing at Herford Lake. Each friend caught a fish – one caught a catfish, one caught a perch and one caught a bluegill. The fish weighed two, three and five pounds. Using only the two clues below, can you figure out who caught what kind of fish and how much it weighed? Sure hope you don't get hooked!

1. **Maya's fish was heavier than the bluegill, but not as heavy as Julia's.**
2. **The catfish weighed the most.**

	2 lbs	3 lbs	5 lbs	catfish	perch	bluegill
Maya						
Peyton						
Julia						
catfish						
perch						
bluegill
