

Perimeter

Area

$$l + w + l + w$$

$$l \times w$$

$$s + s + s + s$$

Tori's family is building
a fence around their
backyard.

Keeley's family needs to
determine the amount
of dirt they need to fill
their garden.

We will be getting
new carpet in our
bedroom.

Quinn is building a
picture frame. She
needs to buy wood to go
around the outside.

**Peyton is jogging
around the outside of
the football field.**

**This is the distance
around the outside of
an area.**

**This is the square units
required to fill a shape.**

**I need to find the distance
around the outside of this
shape.**

**I need to find square
units needed to fill the
inside of this shape.**

**We need to buy enough
tile to cover our
bathroom floor.**

**I need to cut enough
quilt squares to make a
quilt the size of my bed.**

**Molly needs to buy paint for
her bedroom. She knows
how many square feet each
gallon will cover.**

**The gardener will put a
fence around the
outside of her flower
bed.**
